PIT BIKE OFF ROAD : MTR XM 125 big size

MTR XM 125 big size

MTR surprises us once again with another wonder among its range. Now, for those who asked loudly high pit bike wheels 17/14 with the highest quality on the market to execute jumps without problems or fear of breaking, of course, MTR you the presents.

A pit bike with extreme chassis box for use in cross-super resistant to any kind of jump, great enduro for its height, measured not in vain 92ctmos the seat to the floor, if this is a real dirt bike mid size !! This is possible thanks to its wheels larger than the smaller version xzf with rim 17 "front and 14" rear with what we got besides height greater traction.

The MTR MTR XM is available in different engines, because each requires different pilot performance and power in MTR MTR think of everything for every driver can acquire the model that best according to his claims. This in its most economical version, mounted 125cc 4-stroke engine with a minimum consumption and power 12cv.

The MTR MTR XM plastic mounted in TTR format, some plastics very aggressive and beautiful addition to racing for off road use. As always, the designs are the reference standard MTR. Your stickbike.com design team has come up with this design !! An aggressive, beautiful and spectacular for a pit bike design, perfect union, nice design, nice bike, nice price. If you like our designs, please contact us, surely we can customize personal yours.

In the decorative aspect is clear that no one will win the competition.

The MTR XM Adjustable rear suspension mounted in compression and inverted forks 735mm for optimal performance.

As in the whole range, MTR offers 12 months of official guarantee.

Because we manufacture thinking of you, this bike you'll like it as we are. Enjoy it you deserve it !!
