TOYS : Balance bicycle for kids

Balance bicycle for kids

MTR continues to progress in its idea of offering a whole range of products from the smallest. On this occasion we present a bicycle without pedals for swinging children. They will learn to ride a bike and also improve and develop the balance.

It is a toy highly recommended for the development of your motor skills. Take advantage of this launch price.

MTR bicycle recommended from 3 years. Steel frame and rims. Soft cuffs in frame color, high quality tires with inner tube.
