# LEVERS : Blue cnc easy gearbox clutch for dirt bike

Blue cnc easy gearbox clutch for dirt bike

Easy gearbox Clutch reducer for pit bikes made of CNC aluminum,Easy Pull Cable system

Product description:

Traction cable gearbox made of high quality 100% cnc aluminum, blue color.

Characteristic:

It can reduce 50% of the pressure of the clutch lever, making its use more comfortable and easy. The clutch cable will be longer (13-14cm) than the original.

Mounting:

Between the clutch cable and the clutch lever bracket, connect the gearbox and the short cable, note that now the cable will be longer than before. Choose one of the short cables that we supply to mount on your clutch lever, then remove the gearbox cover and place the tip of the cable, at the opposite end place your original clutch cable. Close the box and ready to go!
