OIL : Brake oil MOTUL RB660

Brake oil MOTUL RB660

100% synthetic fluid developed for all hydraulically operated brake circuits in racing vehicles where high-performance 100% synthetic fluids, WITHOUT silicone, are recommended. Specially studied to resist very high working temperatures -Boiling Point 325ºC / 617ºF).

It responds to the DOT 3 level, DOT 4 in its entirety and DOT 5. 1 except in viscosity at –40ºC.

Likewise, its application is recommended for clutches with hydraulic actuation.
