TOYS : Off road electric bike MTR XZE 1000W

Off road electric bike MTR XZE 1000W

MTR is unstoppable once again! We continue to grow, and this time we're offering the youngest riders an authentic 1000W electric Minicross with a 36V motor and a 7.8AH lithium battery. This model perfectly mimics a real off-road vehicle, weighing only 32kg and with a seat height of just 58cm. Its beautiful and futuristic aesthetic, combined with its well-executed design, makes it the model the competition will be emulating. This product comes with a 3-year warranty. Choose your favorite color.

The MTR XZE 1000W features a 36V lithium battery, easily removable, with a charge level indicator on the throttle grip, and a range of up to 25km depending on the charge level and terrain.

This electric mini dirt bike features 10-inch wheels and an adjustable aluminum shock absorber. It also includes safety features such as a 3-position speed limiter to suit the rider's preference. Its performance and price make the MTR XZE 1000W electric mini dirt bike the model to emulate, allowing your little one to ride on any terrain with ease.
