SPROCKETS : XZF 250R sprocket 520x51

XZF 250R sprocket 520x51

The sprocket for the XZF 250R is designed to deliver reliable performance and excellent durability in the drivetrain system. With a 520 pitch and 51 teeth, it provides balanced power transmission, making it ideal for both recreational and sport use. It is compatible with KTM motorcycles manufactured between 2002 and 2008.
