OIL : Motul RBF600 DOT 4 Brake Fluid

Motul RBF600 DOT 4 Brake Fluid

100% synthetic high-performance brake fluid, developed for hydraulic brake and clutch systems in racing vehicles. Its silicone-free formulation delivers exceptional performance even under the most demanding conditions, providing outstanding resistance to high temperatures and consistent performance during intensive use.

With a **dry boiling point of 312°C**, it helps minimize the risk of brake fade under extreme operating conditions. It fully meets **DOT 3** and **DOT 4** specifications and complies with **DOT 5.1** requirements, except for viscosity at **?40°C**.

It is also suitable for hydraulic clutch systems that require this type of brake fluid.
