# PIT BIKE OFF ROAD : MTR XZF 250cc off road

MTR XZF 250cc off road

As it could not be otherwise, in MTR we expand our range of models more and more and now we put at your disposal a 250cc cross bike with 16hp of power !! This is a real machine to enjoy the cross at an incredible price, with this spectacular model MTR XZF 250cc air cooled.

This incredible motorcycle has a powerful 250cc air-cooled engine that gives us 16cv and 5 speeds, so we will have fun as kids by any type of terrain.

It is not necessary to mention its finishes and finishes that make it look even more motorcycle than it is and for the low price it has. This model mounts inverted forks of 880mmx58mm in diameter and 250mm of travel to avoid that of stop in the great jumps. Its rear shock absorber with 480mm compression bottle is ideal for large routes in the field.

This is a cross-country bike without market competitions!
